

# 3-DAY TOGETHER

## BENEFITING THE KOMEN COVID-19 ACTION FUND

The coronavirus pandemic is unprecedented and confusing. Susan G. Komen® is committed to doing what it takes to save lives by supporting those most vulnerable within the breast cancer community during this time. Therefore, we have established the KOMEN COVID-19 ACTION FUND to support the urgent needs among our breast cancer community today and ensure that support continues in the future.

**All dollars raised through the Susan G. Komen 3-Day® through the end of June will support the Komen COVID-19 Action Fund.**

By fundraising for the Action Fund, we can ensure important services continue for those in need, including:

- Komen's Breast Care and Clinical Trials Helpline, which is receiving high call volume related to COVID-19
- Guiding patients through difficult decisions and providing psychosocial support from oncology social workers
- Komen's Treatment Assistance program, which provides financial assistance to patients going through treatment
- Komen's advocacy for breast cancer patients and their needs among policy makers
- Funding lifesaving research and clinical trials to discover new treatments

Breast cancer patients are counting on us now more than ever. Together we can ensure these important services, programs and research are sustained for those affected by breast cancer.
