

TRAINING PROGRAM

2026 SCHEDULE

SUSAN G. KOMEN
3-Day®

Presented by:
BANK OF AMERICA

Boston Training Program

24-WEEK

The Susan G. Komen 3-Day® is an endurance-type athletic event. The more prepared you are, the better experience you will have. This training program was designed for someone who can already walk 3 miles at a 3 mph pace without difficulty. It is only a guideline. If you cannot currently walk 3 miles then start with 1 mile, buildup over the next 2 weeks to a 3-mile walk and then join the program. If you can walk much farther than 3 miles then you can skip down the program or wait until the program catches up with you. The key is to listen to your body. If you feel pain during or after a training session then you have done too much and should stop training and rest for a week. If things do not improve, seek medical advice from your primary care provider.

This training program is geared to increase cardiovascular fitness and muscular endurance over 24 weeks. Remember: this schedule is offered as a guideline. If you can't fit the entire walking schedule into your week, try to do as much as you can. The important thing is to increase your mileage safely. **Good luck and have fun!**

The health and training information provided here is meant to be used as a guideline. Before you begin any training plan, you'll want to consult with your doctor to go over your current physical condition and determine what you are able to undertake safely.

WALKING Nothing prepares you better for walking than walking. "Easy" walking is 2-3 miles an hour on flat surfaces and "Moderate" is 3-4 miles an hour including up and down hills. To fit long mileage into your schedule, you may divide it into two sessions per day.

CROSS-TRAINING Any activity that increases your heart rate and involves using your whole body qualifies as cross-training.

The health and training information provided here is meant to be used as a guideline. Before you begin any training plan, you'll want to consult with your doctor to go over your current physical condition and determine what you are able to undertake safely.

WALKING Nothing prepares you better for walking than walking. "Easy" walking is 2-3 miles an hour on flat surfaces and "Moderate" is 3-4 miles an hour including up and down hills. To fit long mileage into your schedule, you may divide it into two sessions per day.

CROSS-TRAINING Any activity that increases your heart rate and involves using your whole body qualifies as cross-training.

Boston Training Program

16-WEEK

FOR 1-DAY WALKERS

The Susan G. Komen 3-Day® is an endurance-type athletic event. The more prepared you are, the better experience you will have. This training program was designed for someone who can already walk 3 miles at a 3 mph pace without difficulty. It is only a guideline. If you cannot currently walk 3 miles then start with 1 mile, buildup over the next 2 weeks to a 3-mile walk and then join the program. If you can walk much farther than 3 miles then you can skip down the program or wait until the program catches up with you. The key is to listen to your body. If you feel pain during or after a training session then you have done too much and should stop training and rest for a week. If things do not improve, seek medical advice from your primary care provider.

This training program is geared to increase cardiovascular fitness and muscular endurance over 16 weeks. Remember: this schedule is offered as a guideline. If you can't fit the entire walking schedule into your week, try to do as much as you can. The important thing is to increase your mileage safely. **Good luck and have fun!**

The health and training information provided here is meant to be used as a guideline. Before you begin any training plan, you'll want to consult with your doctor to go over your current physical condition and determine what you are able to undertake safely.

WALKING Nothing prepares you better for walking than walking. "Easy" walking is 2-3 miles an hour on flat surfaces and "Moderate" is 3-4 miles an hour including up and down hills. To fit long mileage into your schedule, you may divide it into two sessions per day.

CROSS-TRAINING Any activity that increases your heart rate and involves using your whole body qualifies as cross-training.

San Diego Training Program

16-WEEK FOR 2-DAY WALKERS

The Susan G. Komen 3-Day® is an endurance-type athletic event. The more prepared you are, the better experience you will have. This training program was designed for someone who can already walk 3 miles at a 3 mph pace without difficulty. It is only a guideline. If you cannot currently walk 3 miles then start with 1 mile, buildup over the next 2 weeks to a 3-mile walk and then join the program. If you can walk much farther than 3 miles then you can skip down the program or wait until the program catches up with you. The key is to listen to your body. If you feel pain during or after a training session then you have done too much and should stop training and rest for a week. If things do not improve, seek medical advice from your primary care provider.

This training program is geared to increase cardiovascular fitness and muscular endurance over 16 weeks. Remember: this schedule is offered as a guideline. If you can't fit the entire walking schedule into your week, try to do as much as you can. The important thing is to increase your mileage safely. **Good luck and have fun!**

The health and training information provided here is meant to be used as a guideline. Before you begin any training plan, you'll want to consult with your doctor to go over your current physical condition and determine what you are able to undertake safely.

WALKING Nothing prepares you better for walking than walking. "Easy" walking is 2-3 miles an hour on flat surfaces and "Moderate" is 3-4 miles an hour including up and down hills. To fit long mileage into your schedule, you may divide it into two sessions per day.

CROSS-TRAINING Any activity that increases your heart rate and involves using your whole body qualifies as cross-training.

Tampa Training Program

16-WEEK

FOR 3-DAY WALKERS

The Susan G. Komen 3-Day® is an endurance-type athletic event. The more prepared you are, the better experience you will have. This training program was designed for someone who can already walk 3 miles at a 3 mph pace without difficulty. It is only a guideline. If you cannot currently walk 3 miles then start with 1 mile, buildup over the next 2 weeks to a 3-mile walk and then join the program. If you can walk much farther than 3 miles then you can skip down the program or wait until the program catches up with you. The key is to listen to your body. If you feel pain during or after a training session then you have done too much and should stop training and rest for a week. If things do not improve, seek medical advice from your primary care provider.

This training program is geared to increase cardiovascular fitness and muscular endurance over 16 weeks. Remember: this schedule is offered as a guideline. If you can't fit the entire walking schedule into your week, try to do as much as you can. The important thing is to increase your mileage safely. **Good luck and have fun!**
