

WORKING ON THE PARKING SIGNAGE CREW

1

Work with Your Parking Signage Coordinator

2

Follow Parking Signage Responsibilities and Best Practices

3

Use Parking Signage Supplies

4

Sunday: Take Down Final Parking Signage and Cheer for Walkers

Physical requirements: You must be able to lift 20–30 lbs. repeatedly throughout the weekend as well as bend, squat and reach consistently. Must be able to drive an event cargo van and walk 1–2 miles per day.

Your Parking Signage Coordinator: You will work most closely with the Parking Signage Coordinator. He or she will train you on all Parking Signage operations and give your team direction throughout the weekend.

Parking Signage Responsibilities:

You'll have three primary responsibilities as a member of the parking signage team:

1. Remove parking signage
2. Set up and/or remove event equipment as needed
3. Correct any parking signage issues that may arise

Each day's route is approximately 20 miles long, and you and your van-mate will remove no parking signs and equipment as instructed. There is no fast way to remove signage and it takes about 60–90 minutes to remove signs at each route stop. So pace yourself and your energy accordingly. Your days can be long, but together, your team will have a fun weekend on the road.

Parking Signage Best Practices:

Here are a few tips to help you manage your time efficiently when placing signage.

- **Ride With GPS (RWGPS)** is the software the 3-Day team uses to create the routes. You can use the RWGPS app (for both iPhone and android) to access turn-by-turn directions for the route.
- **Review Pit Maps:** For parking signage near a pit stop, study your pit stop maps very carefully. Be sure you understand where parking signs are located — and if it's not clear, ask the Parking Signage Coordinator.

Sunday: Take Down Final Parking Signage and Cheer for Walkers

Supplies:

- Work gloves and snips

Event Equipment:

- Barricades

- Cones

- 48"x48" Large Signs

NO STOPPING
NO STANDING
NO DROP OFF
TOW ZONE

- Stop Signs

- Delineators

Sunday, Day 3 Transition: On Sunday, you will take down Sunday's parking signage after the last walker has passed through each route stop. Once all parking signage has been removed, your Parking Signage Coordinator will release your van to the Vehicle Load-Out Lot to drop off your van and keys and help unload supplies. Please note that vehicles must be clean and have a full tank of gas before arriving at the route.
